1st Floor, Building 2, Boskruin Village Office Park,
c/o Hawken & President Fouche Drive,
Boskruin, Randburg, Gauteng, South Africa, 2188

Telephone Number: 010 055 7300/1

COMPANY PROFILE

As sole authorised representatives for Eaton MTL, i.safe MOBILE, Beka associates, Extronics, MercuryHMI and authorised reseller for AEGEx, CorDEX, SenSear & XPlore Technologies in Southern Africa, we offer Ex (Exi Intrinsic Safety; Exd Flameproof etc.) instrumentation and industrial networking & communications products to provide hazardous area solutions for all of our clients. Our hazardous area interfacing uses zener barriers or the galvanic isolators that are connected to PLC, DCS, or ESD systems. Extech can offer Intrinsically Safe & Flameproof instrumentation, interfacing, networking infrastructure & mobile devices.

Extech Safety Systems can offer technical assistance with any hazardous area application. We are rated as a level 5 contributor according to the Qualifying Small Enterprise Scorecard. Our commitment to our clients is to remain transparent while offering some of the best hazardous area solutions.
